The representation of the finishes is merely indicative. Please choose the finishes using the folders.

Every item possesses that particular feature of being processed according to purely traditional principles that guarantee its absolute originality and uniqueness. The small variations in colour, hues or streaks on the items are to be considered as qualities and not defects, since they warranty the handcrafted processing which makes each Cielo item a unique and exclusive piece that cannot be compared to industrial standardization. When making the order, the client implicitly accepts those various features that may give rise to claims of any sort.

Always check the availability and delivery time with the commercial department.
